

AI STUDYBUDDY

Phase 5 – AI Quiz and Assessment

This phase adds an AI-based quiz feature to AI StudyBuddy. Students can select a study topic and practice questions based on their learning content. The system helps students check their understanding, review answers, and identify topics that need more practice.

Key Features

- Select Study Topic
- Generate Questions
- Attempt Quiz
- Check Answers
- Identify Weak Topics

PROCESS
Select Study Topic → Generate Questions → Attempt Quiz → Check Answers → Identify Weak Topics

Project Connection: This phase continues the AI StudyBuddy project after Phases 1–4 and can be included as a separate module in the GitHub project documentation.
