

AI STUDYBUDDY

Phase 6 – Study Progress Tracking

This phase tracks the student's learning progress. Activities such as completed study materials, quiz attempts, and study sessions can be recorded and displayed in a simple progress view. This helps students understand their learning activity and completion status.

Key Features

- Record Learning Activity
- Track Quiz Attempts
- Monitor Completion
- View Progress
- Review Learning History

PROCESS	Record Learning Activity → Track Quiz Attempts → Monitor Completion → View Progress → Review Learning History
---------	---

Project Connection: This phase continues the AI StudyBuddy project after Phases 1–4 and can be included as a separate module in the GitHub project documentation.
