

AI STUDYBUDDY

Phase 8 – Notifications and Study Reminders

This phase adds reminders and notifications for pending study activities, revision, and practice sessions. It works together with the dashboard, progress tracking, and AI recommendations to support regular study follow-up.

Key Features

- Pending Activity Alerts
- Revision Reminders
- Practice Reminders
- Study Notifications
- Follow-up Support

PROCESS	Pending Activity Alerts → Revision Reminders → Practice Reminders → Study Notifications → Follow-up Support
---------	---

Project Connection: This phase continues the AI StudyBuddy project after Phases 1–4 and can be included as a separate module in the GitHub project documentation.
