

AI STUDYBUDDY

Phase 2 – Study Materials Management

The second phase manages the study materials used by students. Users can upload learning resources such as PDF files, notes, and other study documents through the application. The uploaded materials are stored and organized so that users can access them whenever required. This phase provides a simple way to maintain study resources in one place. It also prepares the materials for the AI-powered learning features in the next phase.

Key Features

- Upload Study Materials
- Store Files
- Organize Resources
- Access Materials
- Prepare Data for AI

PHASE FLOW	Upload Study Materials → Store Files → Organize Resources → Access Materials → Prepare Data for AI
------------	--

Purpose: To complete Phase 2 of the AI StudyBuddy system and support a simple, secure, and student-friendly learning workflow.
