

AI STUDYBUDDY

Phase 4 – Dashboard & Personalized Study

The fourth phase brings the major features together through a simple and organized dashboard. After login, users can view their study materials and access the available AI learning features from the dashboard. The dashboard provides a central place for managing resources and using the StudyBuddy assistant. This phase improves usability by keeping the important functions easy to find. Overall, it provides a personalized learning environment where students can manage their materials and receive AI-based study support.

Key Features

- Personalized Dashboard
- View Study Materials
- Access AI Assistant
- Organized Interface
- Personalized Learning Experience

PHASE FLOW
Personalized Dashboard → View Study Materials → Access AI Assistant → Organized Interface → Personalized Learning Experience

Purpose: To complete Phase 4 of the AI StudyBuddy system and support a simple, secure, and student-friendly learning workflow.
